## Why we registered our logo and product names.

We have registered the name "CheeseBomb" / "Cheese Bomb" and trademarked our logo. Hence making us the sole legal user of the brand names.

## Why the name "CheeseBomb"

An original brand name minted by my friend Tushita. She used to say, your party cheese balls are a blast! That struck a bell and we said **"CheeseBomb"**!

We are proud of our products and our brands. We wanted to protect our identity and give our customers the best and original experience.

Thanks
